LANGUAGES **HUNGARIAN** (mother tongue) · **ENGLISH** (C1, state accredited)

CERTIFICATIONS

● **Claude Certified Architect - Foundations (CCAR-F)** · **Anthropic**

WORK EXPERIENCE

- **Senior Backend Developer** · **Adroit Group** Oct 2025 – Present
Applying AI-powered development in a fully remote setup with projects like:
- extending a logistics management platform with AI capabilities built on Retrieval-Augmented Generation (RAG),
 - extracting structured JSON from PDF invoices via OCR,
 - developing a RAG-based AI assistant for document Q&A,
 - scraping messages from Slack workspaces and Discord servers,
 - maintaining a self-hosted dashboard that helps companies measure their AI tool usage.
- **Software Engineer** · **Morgan Stanley** May 2023 – Oct 2025
Multiple Java and Python based projects in a mostly locked internal environment, with encouragement to improve team processes and bring in proven methodologies.
- **Software Engineer** · **EPAM Systems** Nov 2021 – May 2023
Backend development in Java with international colleagues. Focused on Clean Code, Clean Design, and mentoring team members.
- **Trainee** · **Kopint Datorg Kft.** Sep 2021 – Nov 2021
Manual and automated testing in web environments across numerous projects.
- **Trainee** · **Leviathan Solutions Kft.** Jul 2020 – Aug 2021
Developed a nationwide access-control system that also manages working hours across many configurations.
- **Teaching Assistant** · **ELTE** Feb 2020 – Jun 2020
Weekly lectures and exam supervision for Object-Oriented Programming in C++.

EDUCATION

- **BSc Computer Science** · **ELTE, Budapest** Sep 2018 – Jul 2021
Graduated with 'honoured' degree
Member of **Neumann János Talent Group**
- **Software Development (OKJ)** · **Jedlik Ányos Secondary School, Győr** Sep 2017 – May 2018
- **Software Development** · **Jedlik Ányos Secondary School, Győr** Sep 2013 – May 2017
Jedlik medal, golden degree

SKILLS

LANGUAGES JAVA, PYTHON, SQL, PHP, C++, C#, KOTLIN
